

DIRECTIONS: Use this BINGO card and interview anyone in the room, asking them to initial the square that indicates they have done the activity described in the square. Each person may only sign a card a single time. The first person to get BINGO (5 in a row), shout it out to win a PhUn Week prize!

B I N G O

I have asthma	I have goosebumps	I know how to take my pulse	I've fainted	I've had my eyes dilated at the eye doctor
I have broken a bone	I've had my reflexes checked at the doctor's office	I have had a cramp in my leg	I've been so scared that I could feel my heart pounding	In the last year I have been sick to my stomach
I have allergies	My grandma or grandpa has a hearing aid	FREE SPACE	In the last month I have had a fever	I have been dehydrated (really thirsty) after I spent a long time playing outside
In the last week, I stayed home from school sick	I can run more than one mile at a time	I have eaten something sweet today	I drank 8 glasses of water yesterday	I ate breakfast before school this morning
I remember the dream I had last night	I slept at least 8 hours last night	I have eaten something salty today	I exercise 30 minutes a day	I wear glasses

DIRECTIONS: Use this BINGO card and interview anyone in the room, asking them to initial the square that indicates they have done the activity described in the square. Each person may only sign a card a single time. The first person to get BINGO (5 in a row), shout it out to win a PhUn Week prize!
